Education

Per Scholas | AWS re/Start Training | Seattle, WA

August 2026

- This rigorous, full-time, 15-week virtual re/Start Training program provides an understanding of Cloud Computing Services, Networking, Databases, and AWS Cloud Management, Monitoring, and Governance Services.
- Attended weekly professional development to develop a personal brand, create a strong technical resume, practice professional communication and collaborative skills, and develop skills required to succeed in a technical environment.
- Course Focus: Linux, Python, Auto Scaling, EC2, Lambda, Shell Scripting, Cloud Concepts, Network Firewall, AWS System Manager, Redshift, and DynamoDB.

Certificates

IBM SkillsBuild

April 2026

AWS Cloud Foundation

August 2026

Professional Experiences

ABE Law Firm | Office Manager | Seattle, WA

Aug 2023 – Present

- Optimized daily operations through Legal Management Systems, increasing the speed of digital workflows and document processing.
- Spearheaded the transition from physical filing to cloud-based documentation, improving data accessibility and organizational security.
- Utilized Microsoft Excel to analyze case progress and operational metrics, providing data-driven reports to support management decisions.
- Managed and maintained digital communication infrastructure, ensuring 100% uptime for internal and client-facing interactions.
- Resolved hardware and software technical issues, significantly reducing office downtime and maintaining continuous staff productivity.

Fire Watch Security | Office Manager | Seattle, WA

Aug 2024 – Mar 2025

- Administered Security Monitoring Software to track facility activity, delivering accurate safety reports and data-backed risk assessments.
- Coordinated complex team scheduling for security personnel using digital tools to ensure full coverage and operational readiness.
- Led technical onboarding and training for new hires on proprietary systems, reducing the time to competency for incoming staff.
- Audited security logs and system data to identify patterns, resulting in enhanced safety protocols and proactive risk mitigation.
- Served as a technical liaison for system updates and software patches, ensuring all security hardware remained compliant and secure.

Ross Dress For Less | Store Manager | Seattle, WA

Dec 2017 – Aug 2023

- Leveraged workforce management software (Kronos/Oracle) to lead and schedule a team of 60+ associates, optimizing labor costs and productivity.
- Utilized Asset Protection (ALPM) software and POS data analysis to identify and resolve fraud, directly contributing to inventory shortage reduction.
- Implemented technical anti-theft measures and collaborated on software and hardware integration to improve store-wide security.
- Standardized operational reporting via the Microsoft Suite streamlines the tracking of inventory and financial performance.
- Trained associates on customer service platforms and loss prevention systems, improving overall technical proficiency and service standards.
